

## *About Martin Lacasse*

### ***Accomplished pianist and artist***

Martin Lacasse is an accomplished pianist, born in Chateauguay, near Montreal, Quebec. He presently resides in the Windsor-Essex region where he has worked professionally as an artist for the past 26 years. He is well known for his realistic, three dimensional murals. He painted the welcoming mural that is being launched at the Windsor-Essex Family Network event Tuesday, June 7, 2016.

Martin has been entertaining delighted audiences and guests with his own unique style of ambient, relaxing piano for the past ten years.

Martin was raised in a very creative household, with both parents being involved in the teaching profession. His first exposure to musical inspiration was his father's harmonicas, which resonated frequently in the home, happily melting away his father's stress, and spurring Martin's intrigue for the power of music to heal and soothe. His mother, Rita, was gifted for the dramatic flair, easily lighting up a classroom of youngsters with her puppet show presentations set to music!

At the tender age of nine, Martin received four consecutive years of personalized Conservatory training through Michael Ricketts, his piano teacher. On into his teens and adult years, Martin continued his musical craft by teaching himself to play the classical guitar. For the past 16 years however, Lacasse has since reconnected with the instrument of his youth, only to realize its limitless potential for creativity and expression.

Martin continues to add new content and style to his piano repertoire, from classical to contemporary, along with cinematic and TV themes. Martin's solo performances take on a musical dimension of their own!

In a world of ever increased anxiety, the soothing piano melodies of Martin Lacasse invite you on a nostalgic musical journey to delight your imagination!
